```r
#combine elements into a single vector
assignment2 <- c(16, 18, 14, 22, 27, 17, 19, 17, 17, 22, 20, 22)
#Create a function that returns the mean of the selected vector
myMean <- function(assignment2)
  {
  return(sum(assignment2)/length(assignment2))
}
#call the function
myMean(assignment2)
```
